

ITNOG GmbH
JOB POSITION

Project Manager

Job Description

As a Project Manager, you will be responsible for overseeing and executing projects. Your expertise in piping systems, will be vital in ensuring the successful delivery of projects within scope, budget, and timelines. You will collaborate with cross-functional teams, including engineering, procurement and construction to ensure seamless project execution while upholding our company's commitment to excellence.

Key Responsibilities:

- 1. Project Planning and Execution:** Lead the planning, coordination, and execution of gas and energy infrastructure projects, adhering to industry standards, regulations, and client requirements.
- 2. Client Relationship Management:** Foster strong relationships with clients, understanding their needs, and providing exceptional customer service throughout the project lifecycle.
- 3. Team Leadership:** Build, mentor, and motivate project teams, guiding them through all phases of the project lifecycle and promoting a collaborative work environment.
- 4. Risk Management:** Identify potential risks and challenges, and develop mitigation strategies to minimize project disruptions and ensure on-time delivery.
- 5. Budget and Resource Management:** Monitor project budgets, allocate resources efficiently, and optimize project costs without compromising quality.
- 6. Quality Assurance:** Ensure the delivery of high-quality engineering solutions and compliance with all safety and environmental standards.
- 7. Continuous Improvement:** Identify opportunities for process improvements and implement best practices to enhance project delivery efficiency.

Requirements

- Minimum of 5 years of project management experience in power plants, oil and gas industry, pipeline systems and process units, or similar systems.
- Strong technical background in power plants, oil and gas industry, petrochemical, pipeline systems and process units.
- Proven track record of successfully managing and delivering complex projects on time and within budget.
- Demonstrated ability to lead and motivate cross-functional teams, fostering a collaborative and results-driven work environment.
- Excellent organizational and problem-solving skills with an ability to adapt to changing project demands.
- Proficiency in German and English (must be fluent in one of them) to communicate with international stakeholders.

Location

East Germany

Starting Date

October 2023
