

JOB POSITION

Piping Designer (3D Design - Autodesk Revit)

Are you an experienced Piping Designer with expertise in 3D design using Autodesk Revit software? We have an exciting opportunity for you to join our team and contribute to the 3D model design based on 2D.

Scope of Work:

Design piping systems based on detailed pipe isometric drawings.

Purpose:

Provide 3D model design in the as-built design stage, aligning with detailed pipe isometric drawings and existing site piping.

Design Requirements:

- Update the 3D model in the basic design stage using Autodesk Revit software according to detailed pipe isometric drawings.
- Modify based on review comments from the client.
- Develop 2D drawings based on the as-built 3D model.

Qualifications:

- Proven experience in Piping Design with a focus on 3D modeling using Autodesk Revit.
- Familiarity with isometric drawings and detailed engineering design.
- Ability to collaborate and incorporate review comments effectively.

Location Dresden, Germany

On-site with the possibility of %100 remote work.

Starting Date February 2024
