

JOB POSITION

Mechanical Inspector

Job Description

We are currently looking for an experienced Mechanical Inspector to join our dynamic team for a project based in East Germany. In this role, you will play a crucial part in ensuring the quality and compliance of mechanical systems.

Key Responsibilities:

1. Conduct thorough inspections of mechanical components to ensure compliance with regulatory standards and project requirements.
2. Check materials and documents during closeout.
3. Control technical documentation.
4. Collaborate with project teams to review specifications and blueprints for accuracy.
5. Perform tests and assessments on equipment functionality, identifying and resolving any issues.
6. Generate detailed inspection reports, documenting findings and recommendations.
7. Work closely with contractors and project managers to address and rectify any discrepancies.

Requirements

- Proven experience as a Mechanical Inspector or in a similar role.
- Good knowledge of mechanical systems.
- Profound knowledge of piping systems.
- Familiarity with relevant industry standards and regulations.
- Strong analytical and problem-solving skills.
- Excellent communication and interpersonal abilities.
- Certification in Mechanical Inspection is a plus.
- Proficiency in English is mandatory, and knowledge of the German language is considered a benefit.

Location East Germany

Starting Date As soon as possible
